

Your Information Resource for Poison Ivy, Oak and Sumac

Volume 7, Issue 1

Welcome back to the Zanfel Zone! Spring is here and poison ivy, oak and sumac are poised to reappear in your yard, hiking trail, and garden. We would like to help you be prepared for poison ivy, oak, and sumac season.

If you, or family members experience a poison ivy, oak, or sumac rash, Zanfel can be found in the first aid section of your local pharmacy.

## Identifying Poison Ivy And Poison Oak In The Spring

Once the temperature warms up in your part of the country, the poison ivy and poison oak plants' leaves will begin to emerge from their buds. The immature leaves start out with a red, waxy appearance. As the leaves grow they turn green. Below are some pictures to help you identify these plants.

## An Awesome Poison Plant Identification App

Rash Plants, created by Naturedigger LLC, is a free poisonous plant identification app for IOs. Rash plants is for people of all ages and experience levels, from beginning to expert gardeners, hikers, boy and girl scouts and everyone in between. Download Rash Plants before your next camping trip, and keep your family safe from the endless, itchy rash caused by poison ivy, oak and sumac. The app includes an informative FAQ about each plant and a gallery with hundreds of high quality photos. The app even offers guidance on safe and effective plant removal. This app is a must-have for anyone who enjoys the outdoors!

Rash plants can be downloaded from the App Store:  
<https://itunes.apple.com/us/app/rash-plants/id658672409>

## 5th Annual Poison Ivy Conference

Zanfel Laboratories is proud to be sponsoring and attending the 5th Annual Philadelphia Poison Ivy Conference. The conference will be held April 25 – 26, at the Philadelphia Zoo.

Attendees will learn about identification of poison ivy, poison ivy plant removal techniques, new poison

ivy plant terminology, new poison ivy plant research, effective treatment of poison ivy rash, and examining features of poison ivy plants growing in Philadelphia.

Some highlights of the conference will include presentations by Dan Boelman RN, BSN from Zanafel Laboratories, Inc., Umar Mycka from Poison Ivy Horticulturist, author Anita Sanchez, and Dr. John Jelesko from Virginia Tech University.
